RELEVANT EXPERIENCE

PricewaterhouseCoopers | Cybersecurity, Privacy, and Forensics **Graduate Consultant** 01/2021 to Present

- Managed an 8-person international team to provide market analysis and policy recommendations for a government-mandated cyber threat hunting program across the U.S. defense industrial base
- Authored a work plan for entering the market as an approved service provider
- Provided policy recommendations and analysis for a CTH program framework

Columbia University | School of International and Public Affairs Teaching Assistant, Politics of Policymaking 08/2020 to 01/2021

- Conducted 2 weekly classes for graduate students on addressing global policy issues through quantitative tools, robust analysis, and memo writing
- Topics: Misinformation/disinformation, data in policymaking, artificial intelligence, machine bias, free expression online, data privacy, radicalism in the digital age, mass surveillance, and the politics of identity

Columbia University | Columbia World Projects

Project Development Assistant

05/2020 to 09/2020

• Developed innovative six-figure projects with high-level stakeholders for addressing major global policy issues including: information and data privacy, universal digital identity, election security, and COVID-19 digital response

Columbia University | Data Science Institute

Research Analyst

04/2020 to 09/2020

- · Quantitatively researched a project analyzing far-right extremists' engagement with abuse, hate speech, and misinformation on social media
- Analyzed and categorized over 20,000 content posts made by far-right extremists among common abuse themes to create the basis for a quantitative machinelearning model to understand how hate speech and misinformation spreads online

The Brookings Institution

Digital Media Coordinator

06/2017 to 08/2019

- Translated complex policy research into accessible, clear social media content
- Managed the content strategy for all science and technology policy research
- · Advised the transition to new digital best practices to comply with GDPR
- Managed the content and ads strategy for the Institution's main accounts to 500,000+ followers, including Google AdSense, Facebook, Instagram, and Twitter with an average budget of \$100,000+ across multiple international campaigns
- · Measured and reported monthly analytics using Google Analytics, Parse.ly, Domo, Sprout Social, and HubSpot to track trends and provide strategy recommendations to senior leadership and program staff on how to prioritize future content
- Increased the Institution's Instagram following by 150% over a two-year period

Center for International Private Enterprise

Digital Content Coordinator Communications Assistant

02/2016 to 06/2017 02/2015 to 02/2016

• Led a six-figure website redesign project from proposal to design and implementation, measured and reported monthly online data analytics, managed vendor relations, launched first fully digital annual report, produced 100+ podcast episodes, managed all web/digital content strategy and graphic design production

U.S. Senate, Senator John D. Rockefeller IV

Press Assistant

06/2013 to 01/2015

- Served as the Senator's final press assistant, managing his online presence and editorial calendar, writing official statements, press releases, quotes, media advisories, and weekly column
- Staffed Senator at official events, wrote legislative correspondence on issues pertaining to foreign policy, technology, and the judiciary and managed the preservation of his official papers after 30 years of Senate service
